

This comment is regarding the Localism Notice of Proposed Rulemaking in MB Docket No. 04-233. My family listens to K-LOVE Christian Radio every day. It is very important to how I raise my children as good community members. Please avoid any regulation that would allow non-Christians on local “advisory boards” to pressure Christian stations to include non-Christian programming/opinions. This is contrary to First Amendment rights of Christians. Also, do not force small stations to have staff on-site all air time or restrict main studio location choices; this could bankrupt them. Lastly, please do not create license renewal problems for Christian stations. Most radio choices are secular—please allow Christians to have a choice!
